Thoughts from the book “Beyond karma” (ALÉM DO KARMA), by Trigueirinho; Irdin Publishing

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
				<b>1</b> The awakened being does not cling to artificialities.	<b>2</b> The reality of the subtle worlds in this universe begins to reflect on the denser levels.	<b>3</b> Humanity is urged to collaborate more promptly in the integration of one's own being.
<b>4</b> Ethereic currents today have the ability to transport healing energies to points that were previously unattainable.	<b>5</b> The purity of your gaze will reveal the field of service meant for you.	<b>6</b> A service group nowadays has karmic purification as one of its tasks.	<b>7</b> Everything unfolds in the silence of the being.	<b>8</b> Faith is paramount.	<b>9</b> Vigilance is an essential tool for individuals and groups traversing the path of service and liberation.	<b>10</b> It is wise and necessary to embrace the assistance from inner life.
<b>11</b> The torch itself must only burn, without concern for guiding the fire.	<b>12</b> Like a flame reaching for the infinite, the being prays and silently surrenders to the Supreme Consciousness.	<b>13</b> External life and the profound levels must merge, becoming a singular expression.	<b>14</b> Doing your best means faithfully fulfilling what is transmitted from within.	<b>15</b> Narrow is the path for those walking toward the Light.	<b>16</b> Detachment must be alive and active, as well as the readiness to move forward.	<b>17</b> The Christic conduit is the guide of instruction.
<b>18</b> When a kingdom ascends to a higher stage, it elevates all succeeding it in the evolutionary chain.	<b>19</b> A being is, in reality, a representative of the energy of a group.	<b>20</b> Planetary life is undergoing healing and will be cleansed of its dark past.	<b>21</b> Each atom in the terrestrial orbit is already receiving its magnificent healing potency to varying degrees.	<b>22</b> Life must pulsate crystal clear and manifest the vibratory pattern guarded by the solar archetype.	<b>23</b> May you, forgotten of your own selves, penetrate the true mystery of communion.	<b>24</b> For changes to occur, firmness is needed, but without rigidity.
<b>25</b> Each human being corresponds to a cell in the body of humanity.	<b>26</b> The fire burning in your heart is the same that sustains the life of this solar universe.	<b>27</b> Life is a continuous flow, and in that flow, beings must travel.	<b>28</b> What matters is the transformation in consciousness; that is all one must seek.	<b>29</b> When a soul takes over the total guidance of the personality, free will is transcended.
